Dear AJCSIT,

The following publication of AJCSIT is a plagiarism of my work.

AJCSIT vol 2 No 3 (2012) pp.36-43

title: A SECURITY OF WIRELESS SENSOR NETWORKS – ANALYSIS ON EFFICIENT
BROADCAST AUTHENTICATION

authors: N. Vikram Narayanadas, N.Sainath

<http://www.innovativejournal.in/index.php/ajcsit/article/view/264>

Compare the two files attached to this email. I expect the
illegitimate work to be removed and announced as a plagiarism.

My coauthor had reported this to AJCSIT on Jun 13, 2013, and the
plagiarizing paper was removed at that time with a note of it being a
plagiarism placed on the journal homepage, but it has appeared online
again. I expect it to stay announced as a plagiarism on your journal
homepage this time.

Jin Hong
